FOR IMMEDIATE RELEASE

Mutual Materials Purchases Oregon Stone Distributor

The Northwest leader plans to expand product offering in Bend, Oregon and surrounding area.

Bellevue, WA – Mutual Materials, the Pacific Northwest’s leading manufacturer and distributor of masonry and hardscape products, announced today the acquisition of Natural Rock & Landscape Supply (NRLS) in Bend, Oregon.

The acquisition of Natural Rock & Landscape Supply, a long-time Central Oregon supplier of stone products, will enhance the growth of Mutual Materials’ branch network in the Northwest; bringing their number of locations to eighteen. With its extensive line of brick, block, natural stone, manufactured stone, permeable pavement systems, and mortar products the Company will immediately enhance the product offering to meet customer demand. Mutual Materials will do business at the current Bend location, but has future plans to build a new facility nearby and expand operations. The Natural Rock & Landscape Supply name has changed to Mutual Materials.

“We are very excited about our opportunities in Central Oregon. With the current and future growth in that area, we hope to build a strong footing in both the masonry and hardscape segments. Natural Rock & Landscape Supply ran an outstanding business for several years, and we are committed to ensuring that their long-standing tradition of good customer service and quality products will continue,” said Joe Bowen, Mutual Materials president.

About Mutual Materials

For over 100 years, Mutual Materials has been the leading manufacturer and distributor of masonry in the Pacific Northwest. With expanded product lines in hardscape, natural stone and permeable pavement systems, the Company currently operates 13 manufacturing facilities in the states of Washington, Oregon, Idaho, and British Columbia, Canada. Mutual Materials also has 18 branches, including the new Oregon location, throughout Washington, Oregon and Western Montana for direct selling to contractors and homeowners, as well as an established distributor network throughout the United States and Canada. In addition, its products are available through major home centers, chain stores and independent lumberyards throughout the Pacific Northwest and Western Canada.
